SUMMARY

MERN Stack Developer skilled in building responsive web applications, creating user-friendly interfaces, secure backend APIs, and managing scalable databases.

WORK EXPERIENCE

Full Stack Developer - IIT Bombay Edtech

June 2025 - Present

A Full Stack Developer at IIT Bombay, working on an AI SaaS marketplace — developing responsive UIs, secure backend APIs, and scalable databases to power high-performance, AI-driven features.

PROJECTS

Alumni Tracking System

Jan 2025 - May 2025

Developed an Alumni Tracking System with PostgreSQL and Clerk authentication, supporting 50+ signups and managing 100+ records. Features included a student portal, alumni event page, profile management, and admin tools for authentication, announcements, and record updates. Enhanced SQL queries improved data retrieval, and a responsive React frontend with Node.js backend ensured fast, secure interactions.

AI SaaS Tool Marketplace

June 2025 - Present

Currently developing a platform for discovering, testing, and purchasing AI-powered tools. Includes features like secure payments, user authentication, and search/filter options. Targeting launch with 20+ tools and analytics to track user engagement. Built with React, Node.js/Express, and MongoDB.

Smart Study Scheduler

June 2025 - July 2025

A web app that predicts optimal study hours per day based on subject, exam date, and difficulty, with a countdown timer to track days left for the exam. Designed for a clean, responsive interface and real-time schedule generation.

EDUCATION

Oct 2022 - June 2026 B.Tech in Computer Science and Engineering

D.Y. Patil College of Engineering and Technology, Kolhapur (CGPA:8.7)
